EDUCATION

Bachelor of Science in Electronic and Telecommunication Engineering University of Moratuwa, Sri Lanka	March 2024 - Present CGPA: 3.6/4.00
Upper Secondary Education - Physical Stream Central College, Kuliapitiya	June 2020 - December 2022 [G.C.E Advanced Level Examination - 3A's]
Secondary Education St. Joseph's College, Kuliapitiya	January 2018 - November 2019 [G.C.E. Ordinary Level Examination - 8A's 1B]

TECHNICAL SKILLS & INTERESTS

Programming & Web	Python, Java (Spring Boot), C++
Hardware & Embedded	ESP32, Raspberry Pi, STM32L0, Arduino Mega, I2C, Sensor Integration
Engineering Software	SolidWorks, Altium, Intel FPGA (Quartus), MATLAB/Simulink
Domains of Interest	Machine Learning, Automation, Robotics, Deep Learning, LLMs, IoT

PROJECTS

Dengue Patient Monitoring System (Team NEXORA) <i>SPARK Challenge Innovation Competition</i>	November 2025 - Present
- Developing an automated medical monitoring system utilizing a centralized hub and sensor networks. - Optimizing current diagnostic workflows by integrating Machine Learning for data analysis to reduce human interaction and improve patient outcomes.	
Autonomous Robotics (SLRC 2026 & Robot Design Project) <i>Academic & Competition Projects</i>	July 2025 - Present
Handled the virtual simulation and automation components for the Sri Lanka Robotics Challenge (SLRC) 2026 robot.	
Smart Water Management System <i>Academic Group Project</i>	
Developed an automated smart water meter integrated with a web application for real-time data monitoring and resource management.	
Laboratory Database Management System <i>Academic Group Project</i>	
Developed a full-stack laboratory management platform using Java Spring Boot for the backend API and React for the admin dashboard.	
Enterprise Network Design <i>Academic Group Assignment</i>	March 2026
Designed the backbone network architecture for the University of Moratuwa and the internal network for the ENTC department building.	
Hardware Product Development (Sound Regulation IoT) <i>Academic Group Project</i>	February 2025 - November 2025
Designed an IoT device and an analog circuit to divide sound inputs into bands and regulate microphone feed, including custom PCB layout and enclosure design.	

POSITIONS OF RESPONSIBILITY & EXTRACURRICULAR

- **Committee Member, IEEE Robotics and Automation Society (RAS)** November 2025 - Present
Organized MAZEX 1.0, a prominent Micromouse competition and associated technical workshop series.
- **Organizing Committee Member, ENTC Career Fair '26** January 2026
- **Organizing Committee Member, Sri Lanka Robotics Challenge** April 2025
- **Mentor, Soyuru Sathkara Seminar Series** January 2025

DECLARATION

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
